

Primate Study Sheet

Primates include all types of monkeys and apes. At the zoo, observe several species of primates and record your observations on this chart. Make sure to include some monkeys and some apes.

Name of Primate			
Monkey or Ape?			
Does it have fingernails or claws?			
Does the animal use its tail to grasp things?			
What color is the fur around the animal's eyes?			
Estimate the weight of the primate.			
What does it eat?			
Are the arms longer or shorter than the legs?			
Tell an interesting fact about the animal's behavior.
