

# OCEAN ANIMAL RESEARCH

Conduct research on an ocean animal

## GRADES 4-6

### STANDARDS

- SCI.4.3.3
- SCI.5.3.1
- SCI.6.3.1
- SCI.6.3.2
- SCI.6.3.5

### OBJECTIVES

- Students will learn how to properly research a topic.
- Students will gain knowledge on various aspects of an ocean animal.

### PROCEDURE

- Have students choose an ocean animal to study.
- Have them research the animal and answer the questions provided.

### RECOMMENDED ASSESSMENT

- Check students' work for accuracy.

### EXTENSIONS

- Have students present their findings to the class.
- Have students complete the Ocean Food Chain lesson.

# OCEAN ANIMAL RESEARCH

Choose an ocean animal to study. Answer the questions regarding that animal.

Name \_\_\_\_\_

**NAME OF ANIMAL** \_\_\_\_\_

Which animal group does it belong to? (Is it a mammal, fish, invertebrate, or something else)	
Write about the animal's size, including typical adult weight and height.	
Describe the animal's coloring.	
Does the animal have a backbone? If not, describe its exoskeleton.	
Does it have any unique body parts? If so, describe them.	
Describe what your animal eats and what eats it.	
What type of habitat does the animal live in?	
Write about any interesting facts that you came across while conducting your research.	

Draw a picture of your animal in its habitat on the back of this page.
