

REPTILE RIDDLE: WHO AM I?

Determine which reptile is portrayed based on a picture and description

GRADE 2

KEY WORDS

- reptile
- turtle
- crocadian
- snake
- lizard

STANDARDS

- SCI.2.3.2

OBJECTIVES

- Students will review that reptiles are a class of animals sharing certain characteristics. They have dry, scaly skin; are cold-blooded; are vertebrates; and usually lay eggs with a leathery shell.

PROCEDURE

- Have students draw a picture of a reptile and include a short description.
- Have classmates guess which reptile is being portrayed.

RECOMMENDED ASSESSMENT

- Classmates discuss reasoning behind their guess while the student justifies his or her picture.
- Determine the accuracy of each description based on what the student says it is supposed to be.

TEACHER HINTS

- If classmates are having trouble, suggest the student gives hints about his or her drawing.
- Have classmates ask questions about each student's drawing to attain a more educated guess.

REPTILE RIDDLE: WHO AM I?

In the box, draw a picture of one of the reptiles you have seen or learned about. On the lines below, write 3-5 sentences describing the reptile you choose. End the description with the question "Who am I?" Have your classmates guess what reptile you wrote about.

Name _____

Handwriting practice lines consisting of a solid top line, a dashed middle line, and a solid bottom line. There are 10 sets of these lines for writing the description.
