

# ZOO SCAVENGER HUNT

Identify zoo animals that fit each description

## GRADE K

### KEY WORDS

- adult
- pouch
- pup
- young

### STANDARD

- SCI.K.3

### OBJECTIVES

- Students will learn that animal babies come in many different sizes. Some look like their parents when born and some have completely different characteristics than their parents.
- Students will learn the important role zoos have in helping to protect wildlife by doing research on animals and the survival of their young.

### PROCEDURE

- When at the zoo, have the students fill out the attached worksheet with animals that fit the description.
- Have the students list multiple animals for each category.

### RECOMMENDED ASSESSMENT

- Make sure the students are correctly listing as many animals as possible for each description on the worksheet.

### TEACHER HINTS

- Make sure to give the students enough time at each exhibit to see the signs at the zoo and record their answers.

# ZOO SCAVENGER HUNT

Find as many animals as you can that fit the descriptions below.
