Nature BINGO

HOW TO PLAY

Learn new ways to appreciate nature as you observe the diversity found in your own backyard.

Listen closely, do you hear the quick *chirp-chirp* of a robin?

Look closely, can you spot some multi-legged friends working in your garden's soil?

Grab your family and friends, and head outside as you work to find nature items listed on this activity card.

- ✎ Print and place in your pocket as you explore your own backyard! Search high and low for nature items.
- ✎ Don't forget to take a pencil along your adventure to cross off and fill in your nature findings.
- ✎ Make it reusable! Laminate or place activity card in a plastic folder pocket. Use dry erase markers for endless games.
- ✎ Find 5 nature items in a row and you win!
- ✎ Be careful where you step! Practice "leave no trace" as you find native animals and animal homes.
- ✎ If you want to enjoy nature from the indoors, print and hang activity card by a window for some intentional nature observations.

Share your nature memories and family connection time with the Fort Wayne Children's Zoo. Use #fwkidszoo or email education@kidszoo.org to share how you used these supplemental activities!

Connecting kids and animals, strengthening families, and inspiring people to care.
