

PROGRAM GOALS

- Observe their surroundings and the animals in the farm
- To understand different animals and learn new terms

GRADES

1st to 2nd

MATERIALS

- Pencils
- Clipboards

RECOMMENDED ASSESSMENT

- Ensure the students are actively engaging with their surroundings in the farm
- Grade students based on completeness

Moo, Oink, Quack, Baa!

Practice your students' observation skills as they learn about the Fort Wayne Children's Zoo family farm animals! A farm is used to grow crops and animals. See below for a variety of questions to engage your student even further:

- Have you been to a Farm before?
- Have you seen any of these animals before? Where?
- Do you know what type of animal this is?
- What sound does a _____ make?

Once the students are finished with their scavenger hunt, have them explore around the farm to find one thing that they learned something new. Having a farm is important to everyone because these animals provide food, clothes, activities, and other materials. Also, some animals on the farm will look after the other animals. Be on the lookout for other awesome animals around the zoo! Share your lessons with the Fort Wayne Children's Zoo. Tag #fwkidszoo or email education@kidszoo.org to express how you used these supplemental activities!

Answer Key:

1. Two.
2. Chicken, Duck, or birds in general.
3. Green.
