

Endangered Species Bumper Sticker

Take Action!

Endangered species' conservation and success relies on passionate and caring voices, including yours! Create your own bumper sticker featuring one of the Fort Wayne Children Zoo's endangered animal species to raise awareness.

- ✎ Pick your favorite endangered species, listed below.
- ✎ Research your animal to explore the question, "Why do you think this species is considered endangered in the wild?"
- ✎ Use the template below or use a different shape to create your own bumper sticker (contact paper works as a great medium).
- ✎ Be creative! Use words, pictures, or symbols to get your conservation message across.
- ✎ Snap a picture of your conservation sticker and share with #fwkidszoo or send to education@kidszoo.org!
